

**Your journey
from AIS to AIM**

Are you on track?

AIM Implementation Support

The revision to ICAO Annex 15, effective in November 2018, along with the new PANS-AIM (Doc 10066), introduces significant changes to the way that aeronautical data is originated, managed and provided.

ITV can support customers from procurement through to implementation into service of the new data management service or system as well as establishing new organisational structure.

SERVICES

- ✘ Develop a roadmap for the transition from AIS to AIM
- ✘ Develop a project plan for the implementation of AIM
- ✘ Design or redesign the AIS organisation
- ✘ Define new procedures and processes
- ✘ Identify the required service and information technology needed
- ✘ Prepare and validate the use cases for the AIM service
- ✘ Manage the implementation of the AIM service

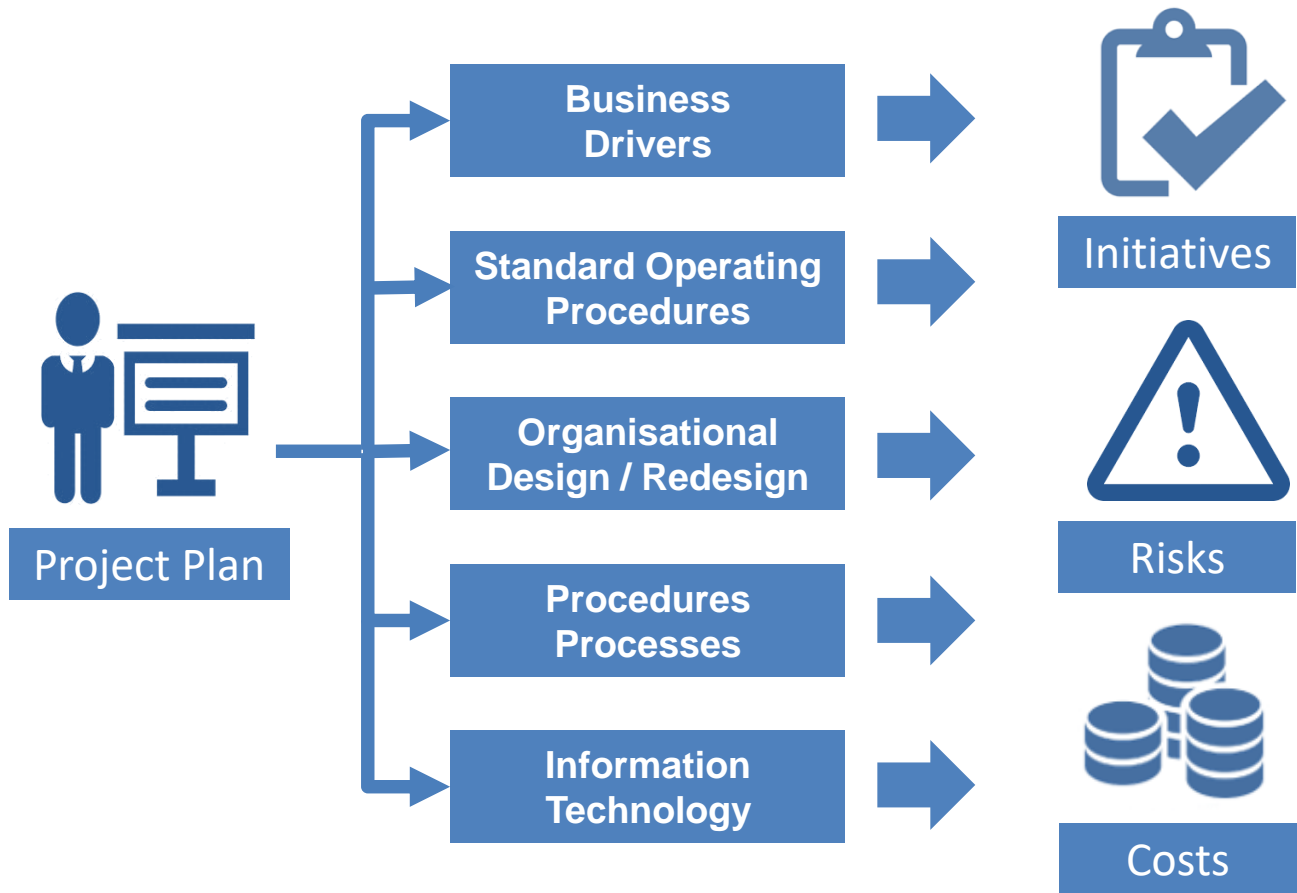

BENEFITS

- ✘ Address all change aspects for the transition from AIS to AIM
- ✘ Manage the implementation to AIM with a systematic approach
- ✘ Shorten the journey to achieve compliance
- ✘ Reduce implementation risks

CUSTOMERS

- ✘ Civil Aviation Authorities
- ✘ Air Navigation Service Providers
- ✘ Aerodromes
- ✘ Data Integrators
- ✘ Data Originators

IMPLEMENTATION SUPPORT

Your proven partner to implement AIM

Our consultants have hands on AIS to AIM experience gained from working together with data originators, regulators and service providers in implementing AIM. They have contributed to the development of the new ICAO Annex 15 and PANS-AIM and engage in working arrangements of ICAO and EUROCONTROL. They participate at the CANSO World ATM and at Global AIM events of IFAIMA.
